PREVIOUS CLIENT TESTIMONIALS

Kim White is a very unique coach. As an elite athlete himself he has the attributes and the ability to help coach people who need him. At the end of the day a good man does the right thing for his family and his community. Being strong as a man makes all of those things easier but understating how all of that works in 2021 can be confusing. Working with Kim is helping me amongst others be the best versions of ourselves.
Dan O'Shaughnessy

This group creates an extremely unique environment where you can have open discussions with other business owners about improving your thinking, life, and relationships led by Kim and his amazing instruction and insights. Gordon Hilleque

Kim White has made a huge impact on my personal and professional life. I highly recommend him to anyone who wants to greatly increase their effectiveness and maximize their energy. Gino Wickman

I've worked with Kim White for the last 10 years. The opportunity to join the Men's Transformation group was a no brainer. As usual, Kim's authentic energy and eye opening insights were just what I was expecting, yet the impact exceeded expectations. I would highly recommend it. Dr. Frank
